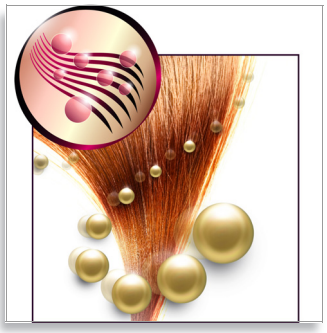
Highlights

Professional 2200 W

This 2200 W professional hairdryer creates a powerful airflow. The resulting combination of power and speed makes drying and styling your hair quicker and easier.

Ion conditioning



Give your hair an instant boost with ionic conditioning. Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is hair that is beautifully shiny, smooth and frizz-free.

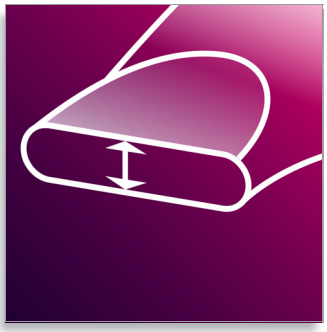
Six flexible speed and temperature settings

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.

Cool Shot

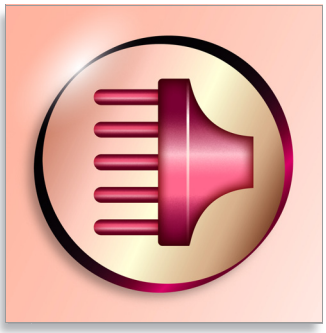
A must-have professional function, the Cool Shot button provides an intense burst of cold air. It is used after styling to finish and set the style.

Narrow concentrator



The concentrator works by focusing the flow of air through the opening onto specific areas. This results in precise styling and is great for touch-ups or to finish a style.

Volume diffuser



The volume diffuser dries hair healthily, reduces frizz and increases volume by spreading the airflow across the hair. It adds lift and maximises volume, especially when used on the crown and root area, making it perfect for creating curls and bouncy styles

Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use in the home or when staying at a hotel.

3 m cord

The longer length results in improved flexibility and ease of handling, so you can use it anywhere you want.
